

LOC/SIS[®]

WHAT WE DO?

We are award-winning experts, in high quality software, hardware and documentation localization for the Turkish market. Besides our strong experience in ERP, IT, Medical and Automotive sectors, we provide services in various fields such as Communication, Legal, Finance and Marketing. We can guide you to the right level, and then back it up with signoff from individual translators and QA people responsible for the project.

HOW WE DO IT?

- **A transformation as in technology**

[Locasis](#) employees are expert users of productivity suites, Computer Aided Translation (CAT) tools, and cutting-edge localization technologies. Our team constantly keeps up with the ever-changing technological developments, such as cloud technologies, AI developments, security measures beyond compliance requirements (ISO 27001:2015) to meet the expectations of the clients and ensure quality assurance and additional security & confidentiality.

- **Ensuring consistent quality**

Locasis is an Exclusive [SAP SE Localization Partner in Turkey](#) and flourishing as a localization services provider for many leading multinational companies since 2001.

As in all areas of the life, over the past 2 decades, we have seen changes in technologies, client needs, process requirements, team members, yet with the only constants in the equation, our business ethics and sustainability processes, we have ensured customer satisfaction.

Through stringent quality control procedures at the linguistic and product usability levels. This includes scoring, evaluations and reviews for all project contributors.

- **Services**

Our team consists of experts in ERP, Life-Sciences, Technical & Manufacturing, IT, Marketing, Financial and Legal contents.
